

The Idea is a good one - however the view's of other groups like NASA, and the International Space Community may be affected in some logistic aspects. This could be co band military users also. The rule was put in place for a reason, Perhaps some other point of view need to take place. If there is no hidden agenda by the FCC due to national security, or international treaty's then it very good Idea! The need for speed yes! Lets get the "Bird's up and running! More useful life on a fast track is need!
